

Buyer

Based at our Saskatoon office and reporting to the Manager, Materials this individual is responsible for purchasing materials, whole goods and services and preparing contract and tender documents for high value purchases as required. Additional duties include the maintenance of material masters, information records, inventory changes, MRP levels and types, and master descriptions. Liaising with mine site, maintenance and operations personnel is critical to ensuring necessary goods are available when required, and order information is communicated effectively.

The successful candidate will have a university degree or business certificate and two years of previous purchasing experience, demonstrating increasing responsibility and effectiveness. Membership in the Purchasing Management Association of Canada and completion of the second level in the Certified Professional Purchaser program is a requirement. This individual must possess excellent judgement, communication and decision-making abilities. Familiarity with SAP or other ERP programs is an asset.

Qualified applicants are to submit their resume by August 3, 2007, to:
